GOAL 1

Identify and dismantle historically inequitable and deeply entrenched systems in our state by equipping school leaders with the knowledge, skills, and confidence to lead equity in their respective contexts.

GOAL 2

Support the sustainability and effectiveness of school leaders in order to reduce the negative consequences related to constant turnover, specifically in the schools where leadership is needed most.

OUR WHY

Principal leadership matters. We exist to ensure that every student in every school has highly effective, visionary, gap closing, and sustainable building leadership.
