TRAILHEAD SESSIONS AND ASSOCIATION LUNCHEONS: JUNE 1, 28. AND 29 Purchase the “Trailhead” learning destination package to access the June 1, 28, and 29 keynote sessions and the WASA and AWSP association luncheons on June 28. Other sessions are add-ons to the Trailhead package.					
June 1 3:30 - 5 p.m.	Opening Session with Keynote Dr. John Hattie 	Collaborative Impact	What if you could triple the speed of student learning? According to findings by Professor John Hattie, a strong sense of Collective Teacher Efficacy can yield over three years of student growth over one school year. One of the most powerful influences on student learning and achievement, Collective Teacher Efficacy is the belief that, together, educators can positively impact learning. When efficacy is high, teachers show greater persistence and are more likely to try new teaching approaches—especially in virtual learning environments!	\$249 Active/ Associate Members \$129 Student/ Aspiring Members \$0 Life/ Emeritus Members	<input type="checkbox"/>
June 28 10 - 11:30 a.m.	Keynote Jeffrey James Binney 	Smart Enough to Start, Dumb Enough not to Quit	Jeffrey will share the lessons of ultrarunning from his experiences to persevere and finish hard things. Leave inspired to stop procrastinating, “do the thing”, and most importantly...cross the finish line.	\$309 Non-Members	
June 28 11:45 a.m - 1:15 p.m.	WASA and AWSP	Association Luncheons	Join WASA and AWSP for virtual association award luncheons.		
June 29 8:30 - 10 a.m.	Closing Session with Keynote Dewayne “D.J.” Batiste 	Power of Engagement	D.J. challenges the audience to see the good and not bad in others. He shares how his teacher, Donna Porter, could have looked at him as defiant, but instead, she viewed his situation as an opportunity for them both to learn and grow.

<p>June 4 8:30 - 10 a.m.</p>	<p>Dr. Paul Bloomberg and Gina Burt</p> 	<p>Leading Impact Teams: Build a Culture of Efficacy</p>	<p>Communities, families, students, and educators were called to innovate during these challenging times. When teachers and leaders believe that together, they have the power to develop assessment capable, emotionally capable, and socially capable learners, they actually do! Collective teacher efficacy refers to a school community's shared belief that through their collective action, they can positively effect student outcomes, including those students who are disengaged and/or marginalized.</p> <p>Instructional leaders and educators with high efficacy show greater effort, persistence, take risks, set ambitious goals, and are more responsive to student needs. We will explore the sources of efficacy needed to empower leaders, teachers, and students. We will learn how Impact Teams use Evidence, Analysis, and Action to make collective decisions about student learning and to empower students to engage in self- and peer assessment and take ownership of their learning.</p>	<p>\$99 Regular \$79 WASA & AWSP Student/Aspiring/Life/Emeritus Members</p>	<input type="checkbox"/>
<p>June 7-25</p>	<p>Screenagers NEXT CHAPTER Viewing Window</p> 	<p>Screenagers NEXT CHAPTER</p>	<p>Registrants receive a free pass to view Screenagers NEXT CHAPTER. The screening window is open June 7–25. The screening link will be provided in your registration confirmation.</p> <p>In feature documentary film “Screenagers NEXT CHAPTER: Uncovering Skills for Stress Resilience”, filmmaker and physician Dr. Delaney Ruston examines the science behind teen’s emotional challenges, the interplay of social media, and what can be done in our schools and homes to help them build crucial skills to navigate stress, anxiety, and depression in our digital age.</p> <p>In Screenagers NEXT CHAPTER, we follow Delaney as she sets out to understand these challenges in our current screen-filled society, and how we, as parents, educators, and mental health professionals can empower teens to overcome mental health challenges and build emotional agility, communication savvy, and stress resilience. Interwoven into the stories are surprising insights from brain researchers, psychologists, and thought leaders that reveal evidence-based ways to support mental wellness among our youth.</p> <p>All conference registrants are invited to participate in a complimentary Q&A session with Dr. Ruston on June 21, 3–4 p.m. Interested? Be sure to add this June 4, learning destination to your cart in registration.</p>	<p>Free with any learning destination registration</p>	<input type="checkbox"/>

<p>June 8 8:30 - 10 a.m.</p>	<p>Peter DeWitt</p> 	<p>Instructional Leadership: Creating Practice Out of Theory</p>	<p>Instructional leadership is one of the most researched forms of leadership, but very little practical insight into how to implement it exists, and many leaders struggle to put it into practice. When COVID-19 hit in 2020, instructional leadership became much more difficult to implement because leaders were separated remotely from teachers and students. DeWitt, Ed.D. will take the research behind instructional leadership, as well as the research he did with hundreds of teachers and students during the pandemic, and dive deeper into six areas that he found is crucial to practices that lead to instructional leadership.</p> <p>That deeper dive involves breaking instructional leadership into six distinct parts, which are implementation, focus 4 learning, instructional strategies, student engagement, efficacy, and evaluation of impact. Leaders need to understand these six areas of instructional leadership, but also need to be provided with time to consider practical ways to implement each one, which also includes understanding implementation science. This session will help meet that need.</p>	<p>\$99 Regular \$79 WASA & AWSP Student/Aspiring/Life/Emeritus Members</p>	<input type="checkbox"/>
<p>June 9 11:30 a.m. - 1 p.m.</p>	<p>Janel Keating</p> 	<p>Leading PLCs at Work Districtwide—From the Boardroom to the Classroom</p>	<p>Chapter 2: Setting the Stage—The Administrative and Principal Team</p> <p>Janel Keating will share the transformation that the central office administrative team and building principals must go through to become a learning focused organization. In traditional districts, departments and schools often operate in silos, paying attention to only the immediate needs in that department or school. In a learning first district, the goal of improving learning for all students in the district is everyone’s priority.</p> <p>This chapter and session will highlight how district learning meetings focus on support for principals and their teams based on the work layered under the 4 Critical Questions of Learning. It will drill deep into the work of the district principal team and the building principal. Janel will share how this team practices and rehearses the work, anticipate questions, and share learning data from the building leadership team and the teacher teams.</p> <p><i>(Continued on next page)</i></p>	<p>\$99 Regular \$79 WASA & AWSP Student/Aspiring/Life/Emeritus Members</p>	<input type="checkbox"/>

(Continued from previous page)

Examples of agendas from the principal learning meetings, leadership commitments made to advance the work in each school, and products that high performing teams produce will be shared as well. This chapter and session will also focus on the reciprocal accountability provided by the district office to ensure the success of every principal and school. Large or small district central office leaders and principals will benefit from this session!

<p>June 11 8:30 - 10 a.m.</p> 	<p>Marisol Rerucha</p>	<p>Leading Restorative Practices</p>	<p>Restorative practices (RP) provides a space for us to connect with the way of our ancestors to embrace a more connected way of being and responding to others in our community. RP is more than just a way of approaching discipline and is a human centered approach to life and work. The most effective leaders have a restorative heart and mind set. They embrace their own humanity, and that of others, through reflection, growth, vulnerability, and healing. Effective leaders ensure the same opportunities are provided to staff so that the workplace is not just efficient and effective, but also a place where conflict can be resolved, and the work is approached with a collective focus on community. Effective leaders recognize that harm in life and work is inevitable and are committed to restoring and growing from these incidences with their staff and communities.</p> <p>You will leave our time together with a basic understanding of restorative practices and tangible resources to guide circles; resources to build systems, time and space for restorative practices; and strategies to model and coach staff/teams in having difficult conversations and holding each other accountable in a way that is loving and respectful.</p>	<p>\$99 Regular</p> <p>\$79 WASA & AWSP Student/Aspiring/Life/Emeritus Members</p>	<input type="checkbox"/>

<p>June 15 8:30 - 10:30 a.m.</p>	<p>Kelcey Schmitz and Susan Barrett</p> 	<p>UW SMART Series Session 1: An Interconnected Systems Framework: School Mental Health & MTSS</p>	<p>This session will provide school and district leaders information they need to know about a step-by-step process to build a trauma-informed single system of delivery in which education and mental health systems are integrated across tiers of support with multi-disciplinary teams using data to implement one continuum of evidence-based behavior/mental health practices. The Interconnected System Framework (ISF) is a structure and process for creating a comprehensive system of social, emotional, and behavioral supports and moving school mental health from a co-located approach to an integrated approach. Key messages of ISF will be shared which include a single system of delivery, mental health wellness as a protective factor, measuring impact as opposed to access, and using the MTSS framework to guide an integrated approach. This session will also provide information on selecting and implementing evidence-based school mental health interventions, working with community-based organizations, and universal screening. We will also provide an overview of existing resources for accessing additional training and technical assistance support for MTSS in Washington.</p>	<p>SESSION: \$79 Regular</p> <p>\$59 WASA & AWSP Student/ Aspiring/ Life/Emeritus Members</p> <p><i>(Or \$199/\$149 for full series purchase)</i></p>	<input type="checkbox"/>
<p>June 17 4 - 7 p.m.</p>	<p>Dr. Floyd Cobb and John Krownapple</p> 	<p>Envisioning a School Where Everyone Belongs</p>	<p>Too often, equity implementation reinforces a vicious cycle of failure. Despite decades worth of reform efforts, predictable identity group disparities persist in educational opportunities and outcomes. So, what should we do? How do we respond as leaders? Research suggests the need to reframe the endeavor, starting with a clear vision of equity. In this session, you will experience that vision. You will also acquire a proven framework for making equity actionable through the concept of dignity to build schools where everyone belongs.</p>	<p>\$179 Regular</p> <p>\$109 WASA & AWSP Student/ Aspiring/ Life/Emeritus Members</p>	<input type="checkbox"/>
<p>June 21 2 - 4 p.m.</p>	<p>Kelcey Schmitz and Susan Barrett</p> 	<p>UW SMART Series Session 2: Leading for Well-Being: Using MTSS to Build a Culture of Wellness for All</p>	<p>Schools have increasingly invested in MTSS to address the academic and social-emotional-behavioral (SEB) needs of all students. This session will focus on wellness practices and developing a habit of wellness for educational leaders. We will also discuss how school leaders can organize, align and allocate resources to create a culture of health and wellness within an MTSS Framework by making shifts in strategy to focus on universal prevention to promote wellness for all, collaboration through establishing a system of support for staff, and data use in decision making to identify protective factors and supports.</p>	<p>SESSION: \$79 Regular</p> <p>\$59 WASA & AWSP Student/ Aspiring/ Life/Emeritus Members</p> <p><i>(Or \$199/\$149 for full series purchase)</i></p>	<input type="checkbox"/>
